

# KIRAN KUMAR SWAIN

📍 Berhampur, Odisha, India — ✉ kiranswain67@gmail.com — 📞 +91 7328820904  
🌐 LinkedIn — 🐙 GitHub

## Professional Summary

Recent B.Tech Computer Science graduate skilled in Python, SQL, Data Analytics, Machine Learning, Power BI, Excel, and Business Intelligence. Completed 3+ projects across sales analytics, health prediction, and student burnout detection. Experienced in data cleaning, exploratory data analysis, dashboard development, KPI reporting, feature analysis, model training, model evaluation, and Streamlit application development.

## Technical Skills

**Programming:** Python, SQL, C    **Libraries:** Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn  
**Data Analytics:** Data Cleaning, EDA, Data Visualization, KPI Reporting, Business Insights, Reporting  
**Machine Learning:** Classification, Regression, Feature Engineering, Model Training, Model Evaluation, Prediction Analysis  
**Databases/Bi:** MySQL, Joins, Aggregations, Group By, Having Clause, Power BI, Excel, Dashboards, KPI Cards, Slicers, Filters, Power Query  
**AI/ML:** LLM, Agentic AI, AI Agents, Generative AI, RAG  
**Web/Tools:** Streamlit, Git, GitHub, Google Colab, Jupyter Notebook, VS Code

## Experience

**AI & Data Analytics Intern — Rooman Technologies Pvt. Ltd.** Feb 2026 – May 2026

- Analyzed 3+ structured datasets using Python, Pandas, NumPy, Excel, SQL, and Power BI to identify trends, patterns, and business insights.
- Cleaned and transformed raw data across 4+ project tasks using preprocessing, visualization, KPI reporting, and dashboarding techniques.
- Generated actionable insights from machine learning experiments by analyzing prediction outcomes, model behavior, error patterns, and performance trends.

**Machine Learning Summer Training Program — PMEC, Berhampur** Jun 2023 – Jul 2023

- Practiced 5+ ML concepts including preprocessing, train-test split, classification, regression, prediction analysis, and model comparison.
- Built and optimized classification and regression models using Scikit-learn, comparing algorithm performance through validation techniques and predictive analysis.

## Projects

**Student Burnout Prediction and AI Study Planner — Python, Scikit-learn, Streamlit**

- Developed a burnout prediction system using 6 lifestyle factors: study hours, sleep hours, stress level, screen time, breaks, and assignments.
- Compared 4 ML algorithms including Random Forest, Logistic Regression, Decision Tree, and KNN; achieved around 89% testing accuracy.
- Deployed a Streamlit app with 3 outputs: burnout risk prediction, personalized study suggestions, and daily study planning.

**Heart Disease Prediction Using Machine Learning — Python, Scikit-learn**

- Examined 13 patient health attributes and applied preprocessing, feature review, train-test split, Logistic Regression, and classification analysis.
- Achieved 85.12% training accuracy and 81.97% testing accuracy, with 82% precision, 84% recall, and 83% F1-score.
- Performed feature importance analysis and model validation to improve prediction reliability for early heart disease risk assessment.

**Blinkit Sales & Operations Analytics Dashboard — Power BI, Data Analytics**

- Designed a sales dashboard to track 5 business areas: total sales, average sales, item categories, outlet performance, and ratings.
- Added 6+ interactive elements including KPI cards, slicers, charts, filters, category visuals, and outlet-wise performance views.

## Education

**Parala Maharaja Engineering College (PMEC)**

B.Tech in Computer Science & Engineering

2022 – 2026

**Khemundi College, Digapahandi**

Higher Secondary Education

Berhampur, Odisha

2022

Ganjam, Odisha
